

# Animals Knowledge Organiser

| Key vocabulary             | Explanation   |
|----------------------------|---|
| <b>Classify</b>            | To sort things into groups.   |
| <b>Identify</b>            | To notice differences between things.   |
| <b>Warm blooded</b>        | Animals that can make their own body heat.  |
| <b>Cold blooded</b>        | Animals that become hotter and colder depending on the temperature outside.   |
| <b>Scales, fins, gills</b> | Some animals have scales to protect their skin. Fins are used to swim through water. Gills are used to breathe under water. |
| <b>Diet</b>                | The food and water that an animal needs.  |
| <b>Carnivores</b>          | Animals that mostly eat other animals (meat).   |
| <b>Herbivores</b>          | Animals that mostly eat plants.   |
| <b>Omnivores</b>           | Animals that eat both plants and other animals (meat).  |

| <b>What do I eat?</b>  |  |
|--|--|
| <b>Animal</b>  | <b>Eat</b>   |
| <b>Carnivore</b><br> | These are animals that eat other animals (meat).<br>            |
| <b>Herbivore</b><br> | These are animals that only eat plants.<br>                     |
| <b>Omnivore</b><br>  | These are animals that eat other animals (meat) and plants.<br> |
