Member of staff in school work hard to build up children's confidence levels. Communication with patients is wonderful. My son does not want to miss a single day. He loves going to the school. He loves his teachers.

Kind and caring staff.

Everything is perfect..

The staff are very professional and truly care about children's welfare. They were very supportive during my son's crohn's treatment, we couldn't have done it without them. A wonderful school to attend!

The school make sure that children learn well in every subject, engaged with every topics and aware of any negative behaviour.

Lovely school and inspirational teachers who genuinely care for the children. Take time and effort to great families in the mornings and after school.

The teachers show much patience and kindness to pupils which definitely improves their performance and the fact that my son likes going to school and comes back with a happy face is the best thing for me.

Teaching phonics to the children...I've seen much improvement in my daughters reading and spelling.

Many things! To name a few...  
Friendly, helpful, approachable staff exemplified by the headteacher.

Lots of fun immersive activities for the children to enhance their learning e.g walk to the park when learning about plants, Kings Coronation day, dance workshop.

Important and invaluable information such as Knowledge Organisers and Medium Term planning are shared with parents so they are able to support learning at home.

Homework is well thought out and structured and reflects learning in school.

The schools phonics scheme is organised and parents are informed and supported through workshops and materials sent home.

Everything is good...we are happy as our child is happy in this school....

All the efforts you are doing are Great. My son came from another country. The atmosphere was totally different in both countries, but my son get adjust very well just because of teaches and all other staff. Keep ot up. Really appreciated.

My son's teacher, from Lark class, Ms Ruddle I believe is an absolutely fantastic teacher. It has been an absolute pleasure having her teach my son.

Making fun coming to school

Rewards children

They are great to identify children with additional needs and work well with those children very well. And also identify children that can work at a greater age.

Everything is done to the best standard and teachers put 100% effort in Everything.

My eldest started in Reception back in 2017 and I have been coming to the school since then. My youngest is now in Year 1 and I can proudly say all my 3 children had am amazing experience at William Austin Infants. The main thing for me was that I had happy children who wanted to go into school and learn. The school has a very low staff turnover which speaks volumes about how the school is run and managed. All staff are friendly and always very interested in any comments or feedback I have regarding my kids education. Mrs Kang always has time to speak to parents when she is out on the playground and speaks very passionately about the school, her staff and various things that are going on in the school. Please continue to do the fantastic job that you are all doing.

I love how all teachers and staff greet the children and parents every morning and accompanying siblings too. It is so warm and receptive and for the pupils creates a safety net from the moment they walk in.

Preperation for phonics screening was great. The phonics screening workshop for parents alongside the past practice papers helped us parents prepare the children to the best of our ability.

All opportunities for parents to come in for assemblies or workshops, sports days are all very welcome as we love to see our children in their learning environment.
